HILES NEWS

These last few weeks have been hectic and I've missed sending these in. With the last few weeks of school, our home is even busier with awards banquets, student of the year events, and even 8th grade graduation for my Ceara. That doesn't mean however that we haven't been out enjoying the spring, even with all the rain, I just have been missing the deadlines.

Congratulations to Bobby Pfeiffer, the son of Gus and Jolynn Pfeiffer; grandson of Marily Pfeiffer. He will be graduating on June 3rd. Those years have gone by so fast! I'm definitely at the age that I can say I remember when he was just a baby.

This year, there wasn't a Memorial Day Celebration here in Hiles. Part of the reason is that the Service Club needs help from whoever is able. Our members are getting older, and just aren't able to do as much. Please consider volunteering your time to the Service Club. We don't want to lose the few events that we have done in the past.

Spring is here, even with all of the rain. I think there should be a "goose crossing" sign down by the millpond, as this spring, there are three families of geese that always seem to be crossing the road as I'm taking the children to school, or on my way to work. It's so enjoyable seeing the simple beauty of the spring wildflowers, and smelling the apple blossoms. Take bug spray along with you though if you're headed out on a run or walk because the mosquitoes will carry you away. The ticks are also heavy, so make sure you're checking for those as well.

Please keep in your prayers Judy McKay Burkey, Carl Tauer, Jane Rausch, and Linda Chaney as they struggle with medical issues. Please keep their families in your prayers as well. Have a great week!
